

For Immediate Release:

Quality Technology, Inc. (QuTech) Is Awarded the National Park Service's Nationwide Point of Sale System Contract

The National Park Service (NPS) awarded the National Point of Sale System (POSS) contract to Quality Technology, Inc. (QuTech) of Largo, Maryland. QuTech will provide our National Parks with a nationwide Point of Sale (POS) solution that integrates a centralized POS database, ruggedized hardware, POS software, subject matter experts, system administration, help desk, and program management.

Denver, Colorado -- Quality Technology, Inc. (QuTech) has been awarded the National Park Service's Nationwide Point of Sale contract. This contract will allow the NPS to procure a customized Commercial off the Shelf (COTS) Point of Sale System (POSS), providing the NPS with the capability to efficiently collect and account for fee revenue at park entrances, visitor centers, and campgrounds; analyze financial data; integrate with other systems; and accurately report fee collections.

QuTech's integrated solution includes POS hardware from Pippard, Inc. and POS database and software from Millenium Retail Solutions. Both companies have proven POSS products which are in use throughout the United States and Canada.

During the one year base period and four option years of the contract award term, QuTech will provide a Centralized Point of Sale Database (CPOSD) and Point of Sale terminal hardware and software, including installation, training, hardware, maintenance, technical support, and integration with other government systems. QuTech's approach provides the NPS with a rugged, highly available hardware and software solution that provides maximum flexibility to meet each Park's unique requirements for fee collection.

About Quality Technology, Inc. (QuTech)
